Apprenticeship Exam - Frontend Web Developer

Message

Hi, Aspiring Web Developer!

This is Jobb and Geo, the current webmasters (2023). We see that you're interested in becoming a Frontend Web Developer.

You have until 8 p.m. to submit your work. We are not expecting a perfect output. We want to know your skill level.

So, kindly submit whatever output you will produce, okay?

Exam Proper

On this test, we want to gauge your mobile-responsive skill using HTML, CSS, and Javascript.
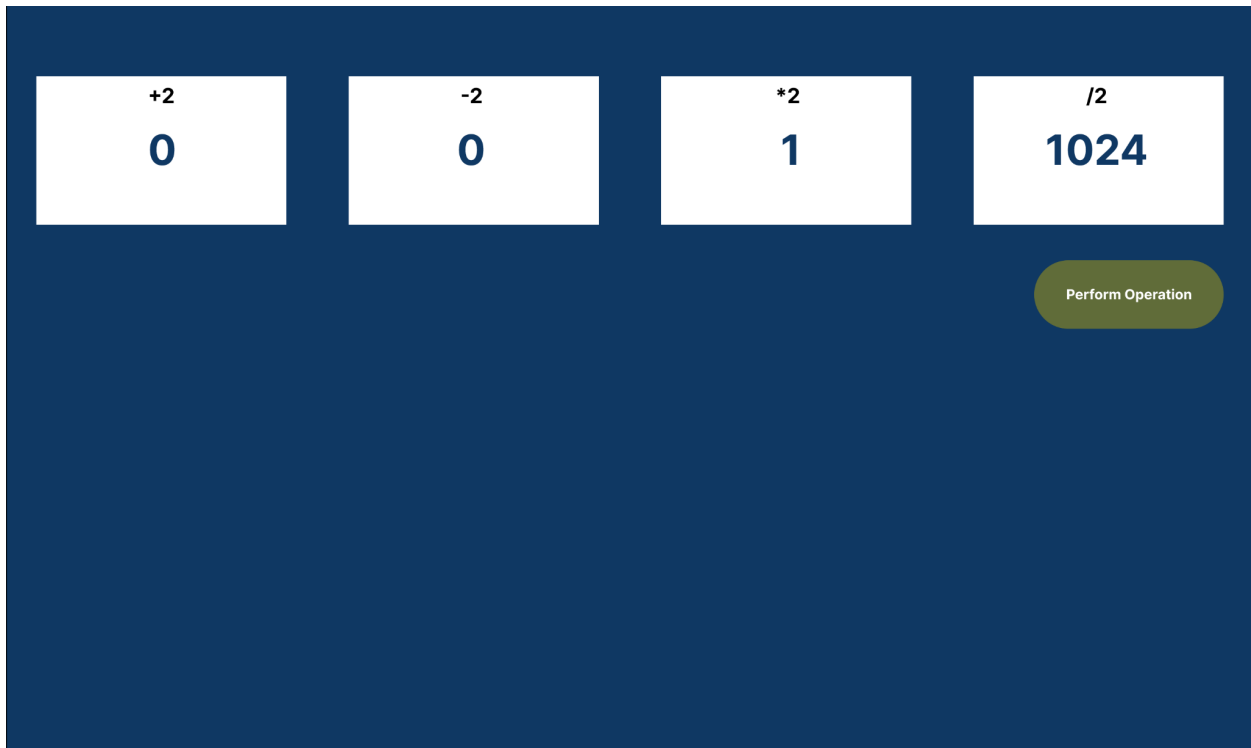

You may use any CSS Libraries and Javascript Frameworks you're comfortable using. In the publication, Jobb used Vue 3 and Quasar--you might want to explore that.

We'll be assessing your work based on the design with three screen sizes (md: 1024px-1440px, sm: 600-1024px, and xs: 0-600px). You can [access the Figma Presentation File here](#).
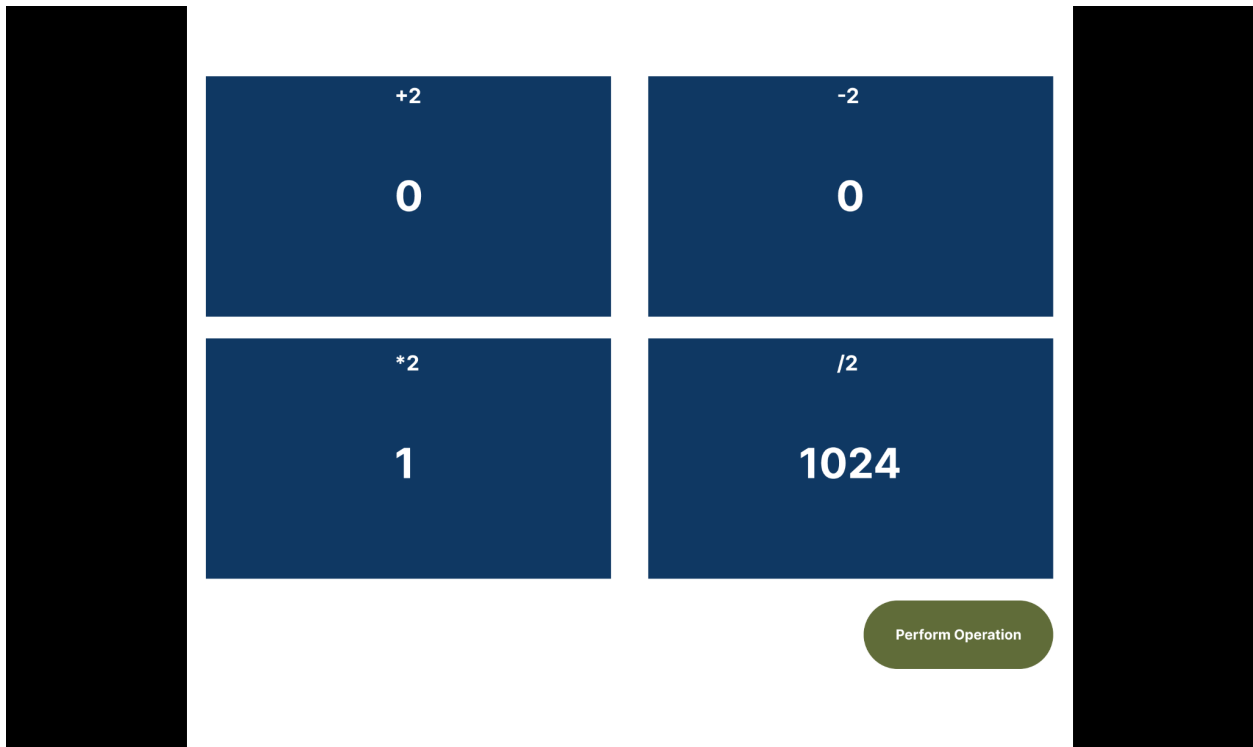

[Kindly send your zip file here in this Google Form.](#)
